The Wind-Up Bird Chronicle — Haruki Murakami

★★★★☆ 4.2 / 5 · Literary Fiction / Magical Realism · Adult (18+)

It starts with a missing cat. Toru Okada is boiling spaghetti in his quiet Tokyo suburb when the phone rings, and his ordinary life quietly comes undone. First the cat vanishes. Then his wife. What follows is a slow descent into the dreamlike world beneath everyday life — prophetic sisters, a war veteran haunted by what he saw in Manchuria, a restless teenage neighbor, and the bottom of a dry well that becomes a doorway to something else entirely.

Part mystery, part fever dream, Murakami's masterpiece is a meditation on love, memory, and the violence history leaves buried. Follow the wind-up bird, and you may not find your way back the same.

A rewarding slow burn — best for readers who like to sit with a book.
